MACDONALD COLLEGE

FRIDAY, OCTOBER 5, 1962

NEW MAC ATHLETIC DEPT. GAINS STUDENTS APPROVAL

RECORD TURN-OUT FOR MONDAY MEET

Approximately 650 at S-C Session

Due primarily to a well-organized publicity campaign and perhaps also to an apparent increase in college spirit on this campus, a record 650 students attended the Student Council meeting Monday in the Assembly Hall. The result was an opportunity for the Student Society executive to present several business matters before the student body, the most outstanding of course being the proposal covering the establishment of a new athletics department here. (See pg. 1, col. 1).

One of the highlights of the meeting was the presentation of the inter-class trophy to the Class of '64. The winners led with 70 points, followed closely by the Class of '63 with 66 and the Physical Education students with 57.

In addition, the various candidates up for election in to-day's polling were introduced and gave brief campaign addresses, thus providing an excellent chance for a good part of Mac to see who was running for various offices.

Dave Appleton, head of the Winter Carnival Committee, spoke briefly of the coming January festivities and asked for the support of all those who may be approached soon to help in organizing the event.

Carlton Davies, president of the Lit. and Deb. Society, outlined its plans for the next few weeks. They include an Amateur Night next Wednesday, to be followed by the inter-class plays during the fall and winter months.

Commenting later on the number who attended the meeting, president Al Crowe said he was very pleased with the crowd and extended congratulations to the executive committee for their effective publicity on the session. He concluded by saying that he hoped we can continue to enjoy the active support of everyone in the future in all S-C endeavors.

16 MM'S

MACDONALD FILM SOCIETY

One of the common objection to films is that, although they may be valuable for factual or rote learning, they produce "superficial thinkers", "dull the imagination" or fill the students mind with unrelated facts at the expence of his ability think.

Test (Ellis and Thornborough 1923 p. 47) indicate that the motion picture presentation, when accompanied by good classroom procedures, does not tend in any way cause the viewer to remember at the expense of stimulation of thought.

Anyone interested in films is asked to attend the meeting on Monday October 8 at 1:00 p.m. in Room 221.

Convention Issue

To be present at Teacher's Convention this year, as in all other years, has become a difficult task for all student teachers. It has been impressed upon us that this convention is of great importance to us as potential teachers, but, unfortunately, a great majority of us are unable to attend because of lectures. During our two years stay at Mac the teachers are taught the requisites of teaching (which is done in an effective manner). The student body, feels that this convention will be of great benefit to us in the future, but, how is it possible to attend unless ALL lectures are cancelled for the duration of the convention. We realize that a percentage of the student body would use this as an excuse for a holiday, thus this problem of compulsory attendance would have to be worked out by the administration. Another problem facing this body would be what to do with the Agriculture and Home Ec. students if all academics were cancelled.

The students don't profess to have a solution to this problem, but we do feel that something MUST be done to rectify the situation. Some of us will be teaching next year without the benefit of having attended one of these important sessions, which we feel would be of great value and influence.

We are not criticizing the administration of the Faculty of Education, but we believe that this problem should be brought to their attention.

TISSUE ISSUE

BIG IN LAIRD

Among the items on the agenda of Monday evening's Student Council meeting, none have assumed more importance than a complain voiced by a Laird Hall resident. The beef?—the poor quality of the tissue in Laird Hall.

Reaction to her revolutionary proposal that conditions be improved was immediate and widespread in the girls' dorm. Among the comments: "I've been thinking the same thing for years!"

"Great! When do we get some results?"

"It's about time. I've been supplying my own since I got here."

It is obvious that immediate action on this issue would be appreciated. The matter has been referred to the S-C executive and at present, chances of a change are being looked into. Congratulations are extended to Laird's rebel (who will remain anonymous for propriety's sake). It is now up to the S-C to see that something is done and soon!

THE REST UP TO MCGILL

The student body of Macdonald College gave its unanimous support Monday to the setting up of a new athletic department on this campus. At the Student Society meeting held in the Assembly Hall, Student Council president Al Crowe reported details of the plan, which was agreed to following a brief question and answer period during which the S.C. pres. convinced everyone present that the plan was workable and necessary to Mac's sport's future.

It was explained at the meeting that the department in coming years will eliminate the need to raise activity fees as much as four dollars per student for athletic purposes. Instead, at the end of approximately five years, when the Stewart funds have been drained, athletic expenses will be taken over by the McGill General Fund. The only stumbling block at present is the acquisition of McGill Senate approval; with it, the plan will go into effect immediately and incidentally save the S.C. \$2700 for other student activities this year.

The question was raised at the meeting of the possible increase in control from McGill over our athletic department. One student particularly wished to know if the athletics board would consist of any McGill faculty members. It is to consist of 1) the vice-principal, Macdonald College, 2) a chairman elected from the board, 3) a secretary which will be an athletics director, 4) three staff, from Macdonald, 5) three students, two graduates and one post graduate student: it is understood that very little organizational control will actually be exerted from McGill.

The plan will not result in the abolition of the Men's Athletic and Women's Athletic Associations. Both organizations will continue to be responsible to the Students' Council on the Students' Activities Committee and at the same time, to the board.

S.C. pres. Crowe made clear at the meeting that the new department was essential in view of recent financial needs. Early in 1961 the directors of men's and women's athletics brought to the attention of the Students' Council the rapidly increasing financial needs of the athletic program here at Macdonald. This was apparently further emphasized by the increase of approximately \$3,000 in the present college year. Because of this increase other activities were beginning to suffer because of lack of financial aid.

Further developments re the athletics proposal are awaited in the future. The decision at this point rests with McGill.

THEY VOTED... WILL YOU?

EDITORIALS

Johann Kaspar Lavater, a swiss poet, said, "What do I owe to my times, to my country, to my neighbours, to my friends? — Such are the questions a virtuous man ought often to ask himself." We suggest that you ask yourselves these questions before you cast your ballot today. Decide in your own mind which candidate you think will accomplish more for the college. Base not your decision on friendship, or class loyalties; but on the character, integrity and individual drive of the respective candidates. Whoever your choice is, get out and vote!

In the past four days of frenzied campaigning, no doubt you have heard the phrase, "We don't care how you vote, but do vote". We, also urge you to vote.

Not that we should have to "push" you to the polls, but as you probably know, during the last Student Society election only 39% of those eligible, actually voted. We do not want to brand you with the stamp of last year as it is history now. Unfortunately history has an habit of repeating itself and man has not changed over the centuries. We can see the specter of indifference hanging over this college. It is up to you to prove us wrong.

In our society we tend to take too much for granted. Too often we adopt the attitude that the right to vote is God-given, while in reality it isn't. It is man-made and is subject to the whims and caprices of man. It doesn't take much indifference to defeat an idea.

It may seem a bit ludicrous to compare the general attitude of apathy prevalent around this college, to our national social problems, but it isn't! Schools and colleges are the training grounds for the leaders and citizens of tomorrow. Our generation may not of placed the world in the position it is now, but it is up to us to remedy the situation. The only way we can accomplish this, is by doing. The sooner we realize our responsibilities the better, for it is only when this happens, will the situation rectify itself.

We realize that anything we say will not expect any pressure on you. In the words of the american writer William Channing, "Every human being has a work to carry on within, duties to perform abroad, influences to exert, which are particularly his, and which no conscience but his own can teach". We leave it up to your conscience!

LETTERS
to the editor

Dear Mr. Knox,

As you have referred to the "new crop" of Freshmen as "new children", must they refer to you as "Father"? From your writing we gather that you are one of the seniors of this college. But remember Mr. Knox, YOU are referred to as a Freshmen (to use your expression "grub") in the T.P. course.

Some of this year's Frosh are older than many of the Sophs and much larger in stature. I would personally like to see you make a first year Phys. Ed. male (or female for that matter) bow down to you. Try it, and then we'll see who feels little and insignificant! Have you also looked at the Frosh Aggies? Except for a few, who are about your height, all the others overtower and overpower you.

You also mentioned that the Frosh disrupted college life. Well, I say personally that Mac will be a better place because of this "New Crop". They are more energetic than many of their so-called Upper Class-Mates. You seem to think that all Sophs are set apart as something special. Nut's to you! The Frosh are your class-mates, not your slaves.

I do agree with your final statement, though, that all Sophs must take stock of themselves. They are not high and mighty, they have not finished learning, and above all they do not rule Macdonald College.

I realize that you have tried to point out one phrase of college life — Freshman Year. But you have expressed it wrongly. Your article leads one to understand that Frosh are not welcome here.

My only hope is that all Sophs do not think as you do. If they do, pity help Mac!

Evan Crabb
2nd. year Phys. Ed.

Dear Sir :

As you probably know, the Red Feather campaign was held Friday, Sept. 21st, 1962. The turnout for canvassing was disappointing and we hope that next year will prove more successful.

Still, we wish to clarify a disagreement that arose during the evening. The committee from the college were in no way responsible for the lack of enthusiasm. This resulted from the incompetent organization on the part of the district Red Feather group who showed little effort in their worthy cause.

For those who did participate, many thanks for your help.

By the way, our committee was appointed to serve refreshments, not to act as recruiters.

Sincerely,

Joanne Bush
(H. Sc. 3)

COMMENTS

Council Corner

The Students' Council adopted the report of the Students' Activities Committee which included such items as :

- 1) Point system for Interclass Trophy
- 2) Calendar Correlation Proposal

Bob Cook, treasurer of the Students' Council, reported in the purchasing committee. He stated that the entire committee set up was being looked into and many changes would be necessary.

A representative from Clan Macdonald proposed a second colour picture in the yearbook. He asked for \$245. This was turned over to the finance committee.

Notice was given that there would be a committee set up to study publicity. A letter of this nature was to be sent to the Director of Publication. It was pointed out that the loudspeaker should be used only for important activities. From henceforth it will be used only by Student Activities' groups.

The treasurer reported that the salary of the permanent Secretary-Treasurer was 10% of fees. Council expressed the opinion that a contract should be drawn up with a set salary. This was turned over to the treasurer for further study.

An issue of concern to the girls in Laird Hall was turned over to Mary Lushaway.

LIT & DEB

My first comment in this week's report will concern the freshmen in teaching. In their ranks there seems to be some misunderstanding about representation on Lit and Deb. First of all, Lit and Deb does not recognize Physical Education students, whether first or second year, as a separate class. This is according to the Lit and Deb constitution. Hence, all first year teachers, that is, all people who are in the first year of two or four year courses in education have only one representatives and the same holds true to the all Sophmores in teaching.

On Wednesday, October 3, Skit Nite was held. Next Wednesday, October 10 another Lit and Deb event will take place, namely Amateur Nite. Following are some important features about this event that should be noted and taken to heart by all students :

- 1) All students may enter in these events
- 2) Entries may be individual acts or group efforts
- 3) Each class may provide an unlimited number of entries
- 4) Acts may consists of signing, elocution, instrumentals, etc.
- 5) Points will be awarded to each class for entry as follows :
 - a) One point for each entry
 - b) Three points for 1st winner
 - c) Two points for second
 - d) One point for 3rd
- 6) Prizes are offered as follows :

a) 1st	\$7.00	c) 3rd	\$3.00
b) 2nd	\$5.00	d) 4th	\$1.00

However, there is one thing I would like all entrants to take note of. Please inform either of the following people about the nature of your act, that is, what you are going to do also, give them your name as well. The committee is as follows :

Chairman : Gene Terry; Hans Bauer; Jan Westerik.

If the notification about entries is stressed strongly, I have good reason to do so. Some of the classes were rather derelict and indefinite about notifying the committee concerning Skit Nite. As a result, it was rather difficult to draw up a clear-cut program. As a matter of fact, Gene Terry had to make several last minute entries and changes on his program, and this does not help the organisers at all!

I am confident, though, that we will receive your fullest co-operation in this respect, and I am sure that we will have all entries on Sunday, or Monday, Oct 7 and 8 respectively.

Another item brought up at the meeting concerned the gathering held on Tuesday evening to speed up the formation of a Music Society. As only a few people turned up, Mr. Carlton Davis decided to hold another meeting on Thursday, Oct. 4, in the hope for a bigger attendance. By the time you read this, this meeting will have taken place, but this does mean that you cannot go out later on to support the Glee Club, the Music Appreciation Club, and the Folk Singing Club.

A COLOUR PHOTO similar to the type in the '63 Clan Macdonald is being admired by Clan Staff, Sue Barclay, Janet Walker, and Dick Whitaker.

SKIT NITE REVIEW

I am going to disappoint people to start with. The people who participated will not see their name in print this trip, because, if I were going to mention names I would have to get the names of all the people involved in each and every skit, and I am basically very lazy.

I interviewed the judges after they had delivered their verdicts. All three of them, Dr. Sachston, Miss Neilson, and Mr. Peterson, agreed that the skits were very spirited and good. The performances were very good on the whole, and I'm sorry to say that we could not give first places to every class. Furthermore, the judges said that participation was good on the part of all the classes, that a great deal of originality was shown in the composition in the skits themselves, of the songs and of the lyrics. The students who participated can rightfully be proud of themselves for a fine job well done.

The entertainment value of the skits was good, if my ears were any judge. The audience had a good many chuckles and laughs out of it. Even when some of the actors became rather partisans in favour of their respective class, the acting went over well and the efforts were heartily applauded without fail.

A good number of the classes satirized certain aspects of life; others did take-offs on television programs, a few classes used take-offs on commercials to good advantage; others did a terrific job on slapstick comedy; and one class did a good satire on plays and acting themselves.

Once more, I'd like to say that the students involved deserve commendations and congratulations for their efforts, planning, writing, and presentation of their skits. Again, I hope that this great enthusiasm keeps up, so that any event sponsored by Lit and Deb will be the same "tremendous success" (quoted from the Lit & Deb president, Mr. Carlton Davis), as Skit Nite.

To conclude, I would again like to quote Mr. Davis. He said, "If this spirit (of Skit Nite) is maintained, we (the Lit & Deb) can expect a successful year! I appeal to you all to help us in making this not an expectation only, but an accomplished fact, so that both you, the students, and we, the executive of your Literary and Debating Society will have a good year."

Jan Westerik.

LIT & DEB

(Continued from Page 2)

Last year, the Music Society was successful. With the support of all students, the Society can be more successful than ever before, and we want to set precedents for succeeding classes at the college. This we can only do with your whole-hearted co-operation and support.

DEBATERS... ATTENTION!!!

The last item of business for the evening dealt with a debating competition. The competition will take place at Bishop's University on October 26 and 27. The executive of the Literary and Debating Society decided to enter the competition. Therefore, we will need debaters. We will need the best. We want to win the trophy. I expect that as many people as possible will offer to debate. Of course, we would like debaters with previous experience, for that is the only way we can win!

To end up I would only like to say this.

THE LITERARY AND DEBATING SOCIETY NEEDS
YOUR SUPPORT TO BE SUCCESSFUL!!!

Calling all students the "NEW LOOK" Year book

This year the *Clan Macdonald* is getting quite a facelift. The Editor, John van Abbema, tells us that this year's yearbook will surpass all previous "Clans" in quality, quantity, and organisation of material.

Here are some of the new features that will be introduced in the yearbook this year. The Editor commented that there will be at least one, if not two full colour double-page photographs.

There will be a new style cover with an embossed surface as in the manner of *Old McGill* and other publications of like note. The graduate students will be getting larger pictures and their write-ups will probably be in bigger print than in previous years. The addition of forty pages over last year's Annual will make quite a difference to the layout. Hugh McDonald, Art Editor, is going to introduce the *Clan Kids* to you — no doubt you will enjoy their antics.

So remember the *Clan* is going to be bigger, brighter, and better. Make sure you get your copy. They will be on sale next week starting Wednesday the 10th. from your *Clan* Reps and from booths at the Coffee Shoppe and Stewart Hall Foyer. Also, on sale will be the class pictures for those who would like them.

POINTS TO PONDER

PHIL KNOX

TEACHERS VS AGGIES — It would seem, judging from last week's "Fait-Ye," that the spirit and morale of the college is on the upswing. The editorial told strongly of the lack of support from the Aggie boys; and the two articles about someone looking at someone else which were placed side by side in the last issue, proved that the interest or at least the fight between the Faculty of Agriculture and the Faculty of Education is there.

This enthusiasm, to out-do the other man and to prove that one or the other faculty is better, is vitally essential at a college which caters to both. And, I might add that although I am biased to a certain extent, my purpose is to view the situation objectively.

We all love to let off steam regarding this subject whenever members of opposite classes get together, and sometimes the issue can get a little out of hand; but the fact remains that way down deep there is a feeling of high regard and respect for "the other man." Who would feed the teacher with food if it were not for the farmer; and who would feed the farmer knowledge if it were not for the teacher?

The idea of having an Agriculture Editor on the staff of this weekly, **CONTROVERSIAL, INFORMATIVE, AND COLOURFUL** newspaper is an excellent one and has long been needed. Let's see some response to this offer. However, this is only the beginning. It should be realized by everyone that there are two basic faculties here at Mac and that each should be supported to the utmost of everyone's ability. We have a duty to our own faculty as well as to the college as a whole.

The Teachers have an obligation to try to capture the plaque which was presented to the Agriculture Class of '65 at the Student's Society meeting last Monday. This plaque was awarded to the class with the highest points scored from a number of activities performed around the campus last year. Perhaps I could suggest here that the Student's Council add a few more activities to the list when considering the award for next year. One might be the participation on the staff of the "Fait-Ye Times" and another the percentage of contributions to the paper from each faculty. Anyhow, the importance of winning this plaque should be emphasized to all classes; thus establishing a worthwhile goal for everyone interested in the campus spirit throughout the coming year. Believe me, a lot of fun can be had by all.

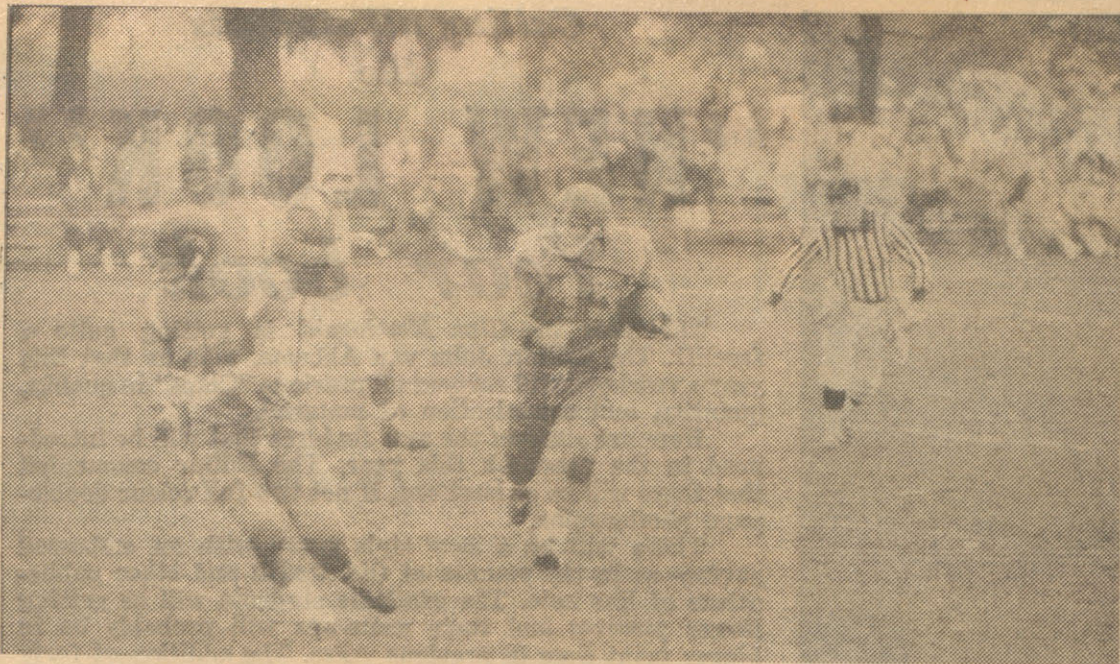

It has been said that wars advance a society at over twice the normal rate of growth. Well, this is one "cold war" that can certainly do us no harm.

I am truly hoping that this spirit of competition remains throughout the year as well as in the years to come; and when the smoke has cleared away, we will all find that the college as a whole has benefitted from it.

TEACHERS, KEEP LOOKING AT AGGIES; AND, AGGIES, KEEP LOOKING AT TEACHERS. BUT DON'T EITHER ONE OF YOU LET THE OTHER GET AHEAD.

CAMPUS CLIPPINGS — Considering the little time they had for preparation, all classes did a great job at the SKIT NIGHT last Wednesday. Perhaps, the Assembly Hall could have been a bit cooler — there are windows in there you know. Regarding those **TYPOGRAPHICAL ERRORS** that appeared in my column last week; don't blame me, blame the printers. I hope you got the jest of it anyhow. Remember F-8, the **DEERSKINS** are still around (some o them). For a couple of days, last week, there prevailed an atmosphere of **ROMANCE** in the Coffee Shop with only half of the lights working. Maybe we are going "beat"? All of us are pulling for you **PROFESSOR MORRISON**; get well very soon, we really miss those slides. Those uniformed men who walk around the campus handing out **WARNING TICKETS** prove to be of little use. Are they not allowed to issue **PARKING TICKETS** or are they merely here for show?

There seem to be an abundance of **FRENCH SONGS** on the **JUKE BOX** over at the Coffee Shop; is it possible for the French Staff to stoop so low? **ELECTIONS** were held on Wednesday and are being held again today; much confusion reigns as all the elections seem to be held at the same time. I would like to praise all students for the large turnout at the polls. If anyone knows where the **YELLOW BALL** from the pool room has disappeared to, will they please return it. **TRACTORS** seem to be the latest form of transportation around the college lately; they're even more dangerous than **VOLKSWAGENS**. Expected is a **BAND DANCE** every second week — Bravo! **URSULA** has been seen around campus during the past couple of days; welcome back. A small comment on the article from last week's "Fait-Ye Times" entitled: **BEEFS AND BOUQUETS**; was it competition or correlation? Those election cries heard around the campus the other day reminded one of the book 1984; the **MOBILE UNIT** is really a boost and a credit to the college.

Jim Dickie (75) blocks for Doug Carpenter (15) in a play called a "Quickie Left" - action shots such as this will be a feature in the sports section of this year CLAN MACDONALD.

Football forecast

by Bill TEMPLEMAN

Last Saturday's exhibition tilt against U. of M. produced some unexpected surprises for the MAC crowd. First of all, we saw a rock — hard defense, the type of which MAC has not seen for a number of years. Spearheaded by the two middle linebackers, Alex Barontseff and Gary Waltho, the defensive squad yielded a very miserly 20 yards to the U. of M. Frenchmen. Standout performances on the defensive team were also turned in by our two new rookie tackles, Eric Hoogendoorn and Wayne Parker. These new boys deserve special commendation for their grade A number one brand of play since this was the first time either of them played in an American — style football game. Hoogendoorn, a Dutch student in Agriculture IV, has played soccer before, but Parker, a huge "swampie" import to the class of '64, has never been exposed to this sort of game before.

Offensively, the team moved the ball well on certain occasions such as the 65 yard drive for Sammy Portch's touchdown. However, due to the muddy condition of the field, and the rookie backfield, some of the plays from scrimmage failed to click. Coach Pugh remarked that as soon as the backfield timing is whipped up to peak level, a higher percentage of plays will "go". Individually, Dickie's pass — catching did deserve applause as did the, heads — up running of Messers, Kool and Carpenter. At the helm of the squad, that ever blooming prennial Q. B., Mr. Sam Porth, turned in his usual fine performance. Bob Maclean, fill — in quarterback, showed — up well for his first game.

Final score in the game was; MAC-14, U. of M. - 7. The two Aggie touchdowns were scored by Portch, on a quarterback sneak behind Lawrence's blocking and Carpenter, on an off tackle plunge behind the bulldozing of Simms and Florion.

Looking ahead to this Saturday afternoon, the word is that the fans (an unfortunately rare commodity!) should be in for a fine show of hard — hitting football when the fighting Irish of Ottawa's St. Pats tackle our own big twelve! Since this will be our first home game of the league schedule we would like to see as many fans as possible out on the football field on Saturday afternoon. Last Saturday when U. of M. was here, there was a pitifully small crowd on hand. One really had to go through the stands with a sheep brush to find a single spectator. When MAC put a mark on the score board, there arose from the sidelines a most pathetic whimpering excuse for a cheer. There should have been a mighty rear. Why wasn't there? ANSWER: No fans! No people! No noise! No support! This situation must change. Thank heaven there were some of the cheerleaders present. C'mon gang, get with it! These guys devote alot of time and effort to the sport and they deserve everyone's support. Let's show the team we're behind them, all the way. Where's your spirit? We'll be looking for EVERYONE AT THE GAME ON SATURDAY. GET OUT THERE!!

MEN'S SPORTS

by Guy PARKER

The exhibition game last Saturday provided lots of enjoyment and excitement for both spectators and players alike. However in case you weren't there, our MAC AGGIES emerged victors 14-7 over the University of Montreal. Doug Carpenter, a hard running rookie halfback for the Aggies, cashed on 8 of the points while Sam Portch, perennial quarterback for Mac, scored the remaining 6.

In the overall account, our defensive squad were far superior to the offensive team. The defensive team gave up only — 20 yards rushing and 5 of the Montrealers' passes were intercepted (Bill McConachie led in that department with 2).

The defensive backs, Dave Léves, Carl "Pepsi" Piela and Bill McConachie, played brilliant football while Gary Waltho and Alex Barontseff, linebackers, plugged up the line holes. The timing in the offensive squad was not up to par, and Carpenter who ran for 95 yards in 15 carries was the only outstanding backfielder. The Aggies play tomorrow — their first league game — against Ottawa St. Pats' so DONT MISS IT !!!

Along with football, the interclass football has started! Come out and participate for your team; anyone can play. For further details on inter-mural sports see the article on this in the previous pages.

TRACK AND FIELD.

The team has been out practicing regularly, and Coach Lawrence Lowe has a better than average squad although two members of last years team, Dave Baxter and Garty Macdonald are unable to perform due to activities elsewhere. George Koski seems to be a strong contender in the broad jump and hop-stop — and jump events while Howard Phillips and Carlton Davies should win some points in the hurdle events. In the sprint dept. James Sparks, a first year Phys-Eds shows a lot of promise and another newcomer to the Macdonald track team, Pete Marshall should do well in the javelin event. In the long distance events Mason and Whitaker are also expected to represent Macdonald on the scoring sheet, Ted Jones Mac's high jumper is also expected to place.

In the big meet on Oct. 12th is being entirely sponsored by the first year Phys-Eds. They are expecting every one to turn out and cheer our athletes on to victory, so do NOT miss it. Jim Dickie and Gary Waltho are the publicity managers; let's make their job easier and give our support to the entire first year Phys. edd. class and the track team on Saturday afternoon.

Women's Sports Round up

Anyone can run from the pool to the gymnasium all day, but can YOU get a man with a muscle?

INTERCOLLEGIATE SOCCER

This year's intercollegiate soccer team, under the watchful eye of Miss Walker as coach, is composed of : Maureen Custy (goaler), Joanne Bush, Jane Porter, Bron Evans, Judy Chapman, Donna Thompson, Sue Pollock, Marilyn Craig, Linda McKellar, Marilyn Misner, Diane Taber, Myrna Brien, Mina Uriash, Donna Trenholme, and Sacha Walker (manager).

The first game for the team was played Tuesday evening against Macdonald High. The soccer team set off on a poor footing as Mac High scored within the first 1½ minutes. The college play was a bit confused, showing some of the girls, new to the game, were not very adept. However, after the first quarter they began to settle down, and play in their proper positions. This paid off in a goal scored by Mina Uriash on a wing kick from Donna Trenholme. Throughout the rest of the game Mac tried in vain to score another goal — and the final score stayed at 1 - 1.

The girls have their next practise on Tuesday, Oct. 9th, and they are asked to meet in Laird Hall foyer at 6:45 for team pictures. The next game is scheduled for October 11, against Hudson High School here at the college at 7 P.M.

Best of luck to all the girls.

TENNIS

As of now, everyone playing interclass tennis has finished their first round. All participants seem to be keen and enjoying themselves.

Concerning Intercollegiate tennis, the team will be picked next week and arrangements have been made to play a team from McGill on Wednesday. Also, a match against Bishop's University may possibly be arranged for a week from this Saturday.

All interested players are to be at the tennis courts Wednesday, at 6:30 P.M.

Interclass Sports

Macdonald offers students many inter-collegiate sports; however, this promotes overall spirit in the college only. This is important, but does nothing to arouse individual class spirit, which is a very essential part of overall college spirit. The points system is listed below:

- 100 points — football, hockey
85 points — basketball, volleyball
60 points — tennis, badminton
50 points — swimming, track, woodsmen's, harrier
 - CLASS STANDINGS**
football, hockey, basketball, volleyball
entering a team — 25 points
winning a game — 15 points
losing a game — 5 points
a tie — 10 points
defaulting a game — 5 points
finishing first — 15 points
second place — 10 points
third place — 5 points
championship — 40 points
 - SWIMMING**
Qualification — 1 point

For breaking standard 1 — 1 point
Standard 2 — 2 points
Individual championship — 10 points
 - WOODSMEN'S COMPETITION**
The inter-collegiate scoring system is used.
- INTER-COLLEGIATE REPRESENTATION**
a) For each representative a class has on any inter-collegiate team, the class is awarded 25 points, and if he, having been listed on the team, is unable to participate due to illness or the like, the points are still awarded;
b) Managers of inter-collegiate teams shall be given the same number of points as a player at the discretion of the M.A.A. director and the Athletic director.
- HANDICAP POINTS SYSTEM**
The smallness of classes is compensated for by bonus points which are added to the total points earned by each class in the inter-class competition, according to following formula:
eligible number in class
- Bonus points = $\frac{\text{eligible number in largest class}}{\text{eligible number in class}}$
- Now that you know how the system works, COME OUT AND PARTICIPATE!
